EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims **26-31** are canceled as directed to a non-elected invention.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

The prior arts do not teach or fairly suggest a programmable finite state machine using memory and logic block to be configured to transition from a current state into one of a plurality of next states in response to receipt of an input symbol and based on stored order of generality, and each of the said current or next states being represented by m bits, and each input symbol being represented by k bits. Particularly, the method comprising the steps of: "receiving a (k+m)-bit word representative of the k-bit input symbol and the m-bit current state", "supplying one or more matching transition rules, ***wherein the one or more matching transition rules are stored in a ranking order of generality***", "selecting a most specific transition rule from among the one or more supplied matching transition rules", and "supplying the one of the plurality of next states".
